On Line Assignments
Automated Attendance

Web Portals

Student Reporting

Business Office Solutions

Fundraising
Online Auctions
and much more...

Educational Portal Solutions

Collaboration Between Teachers, Students and Parents

As the Internet becomes an integral part of our lives; many institutions are turning to Web Portals as a means of enhancing the overall educational experience. Web Portals allow for student-teacher-parent collaboration and information distribution in a real-time, targeted environment, keeping all the constituents engaged in the educational process.
